

Missing Levels Data

This document reports the missing data records in the ancillary LEVELS files. Missing data are reported by transect, station (distance in feet from the northwestern end of the transect), and nominal piezometer depth. Empty cells representing missing data were all filled with a common missing data marker “.” in the final published data files.

Transect B

Station 280 @ 4ft

Transect C

There were no missing data for this transect.

Transect D

Station 300 @ 2, 4, and 8ft

Station 309 @ 2, 4, and 5ft
