

Appendix A. LTERATP Missing Data for 1981 to 1985

This section identifies data that are missing from the LTERATP dataset. Missing data values are due to either the sample not having been collected on the day in question or a lack of necessary materials to process the sample. Missing data were verified with information from the original LTERATP documentation. In general, the main source of missing data was from not sampling on weekends. The following information is organized by site and date.

Clambank Creek
